

## TECHNICAL SERVICE BULLETIN

### Coin Chute Modification

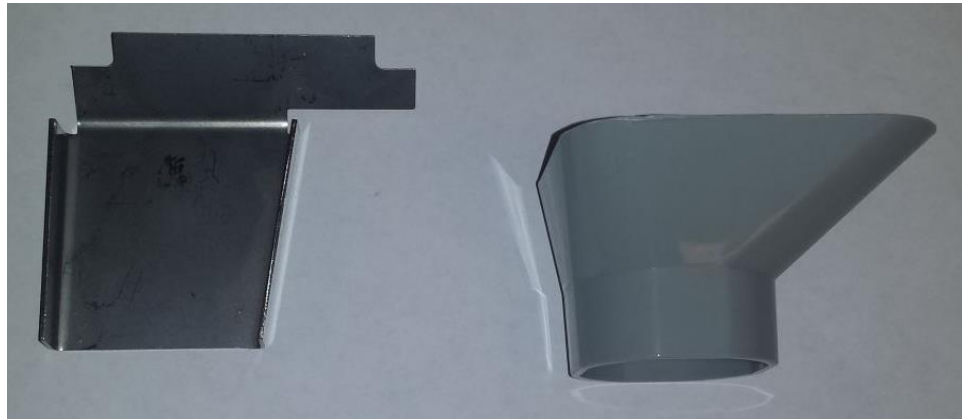

#### Summary:

To improve the flow of coins from the coin mechanism into the cash box a modified coin ramp and coin chute are now available. Instructions for installation of the modified coin ramp and coin chute are provided below.

#### Material:

Coin Ramp  
P/N HDM0178800

Coin Chute  
P/N HDM0178900

#### Installation Instructions:

1. Loosen the two bottom coin mechanism mounting nuts.
2. Lift the bottom of the coin mechanism to provide space for the coin ramp (HDM0178800).
3. Slide the coin ramp under the coin mechanism as shown.
4. Tighten the coin mechanism mounting nuts previously loosened in Step #1.

5. Install the modified coin chute (HDM0178900) as usual.
6. Be sure to rotate the coin chute to the proper orientation for each tower.
7. When closing the faceplate be sure to check the coin ramp and modified coin chute for proper alignment.
8. Bend the coin ramp up or down as needed.
