

Protel's PTE 600 Mini-Payment Tower Series

It's an Easy Up-Grade with the PTE 600 Mini- Payment Tower

- * Provides the ability to change the vend price without the need to visit the site location
- * Eliminates the need for expensive pricing decals on your air and vacuum machines.
- * Remotely downloaded pricing and vend times are displayed on dual LCD screens.
- * Enhances credit card security by upgrading to an EMV card reader.
- * Provides the ability to convert your standard air machine to a precise digital air machine.

**Air only Digital Air machine
with EMV card reader
PTE 620**

Specifications:

Protel's Mini-Payment Tower Series is compatible with all Makes and Models of Air Vacuum Water machines. The payment tower works in conjunction with an under the machine coin vault. The payment tower is a heavy gauge stainless steel cabinet that provides the ultimate in technical serviceability and security. All mini-towers are field configurable to provide a dozen different models, i.e.

- (1) **PTE-540: Air only or air/vac machines;** Dual coin drop. (no Display).
- (2) **PTE-621: Air only machine;** Single coin drop with EMV card reader and dual LCD displays.
- (3) **PTE-631: Dual Service air/vac machines;** single coin drop with EMV card reader and dual displays.
- (4) **PTE-620: Air only digital air machine;** Single coin drop with EMV card reader and dual displays.
- (5) **PTE-630: Dual Service air/vac machine;** Single coin drop with EMV card reader and dual displays.
- (6) **PTE-550: Air only digital air machine;** Dual coin drops with large digital display and no card reader.

The PTE-600 Mini-Payment Tower Series of housings provides for easy "Plug & Play" field upgrades from one model of tower to another with swap-out pre-wired and connector-ized front panels.
